REPORT OF THE MANAGERS

OF THE

GLASGOW LOCK HOSPITAL,

FOR 1808.

At a GENERAL MEETING of the CONTRIB-
UTORS and SUBSCRIBERS to the LOCK
HOSPITAL, held in the Tontine Tavern,
the 28th November, 1808,

JAMES MURDOCH, Esq. in the Chair,

The Managers presented a Report of their pro-
ceedings since the last General Meeting in De-
cember 1807, which was approved of, and ordered
to be printed and distributed among the Subscrib-
ers.

The following Gentlemen were appointed Ma-
nagers for the next year, according to the Seal of
Cause granted to the Hospital by the City of Glas-
gow:—

Nicol Brown, Esq.

Thomas Hopkirk, Esq.

John Tenant, Esq.

Dr. Balmanno, Esq. }

John M'Arthur, Esq. }

John Craig,

John Guthrie,

James Murdoch,

Gilbert Watson,

Robert Yuille,

Robert Findlay,

John Kingan,

From the Town Council.

From the Merchants' House;

From the Trades' House;

From the Faculty of Physi-
cians and Surgeons;

} Esqrs. } From the Subscribers.

The Meeting unanimously voted their thanks to Mr. W. Dunlop, Surgeon; to Dr. R. Miller, Consulting Physician; and to Mr. R. Yuille, Secretary to the Institution, for the faithful discharge of their duties during the last year.

REPORT, &c.

From NOVEMBER 11, 1807, to NOVEMBER 11, 1808.

In making their Annual Report, the Managers are happy to state, that during the last year, the Subscriptions have been sufficient to defray the ordinary expences of the House, and to discharge a small part of the Debt owing by the Institution (see Appendix A.)

They feel it their duty, however, to remind the Public, that the greater part of this Debt still remains unpaid; and that, to secure the permanency of the Institution, it is very desirable that a moderate Fund should be accumulated. The Managers, by no means, wish for such a Capital as could render the Lock Hospital indifferent to Annual Contribution, and consequently independent of the public opinion; but unusual expences must occasionally occur, or the amount of annual subscrip-

tions may occasionally decline, and it is very desirable that, at such times, there should be funds from which the ordinary expences of the house might be defrayed, without refusing relief to the wretched, or laying any additional burden on the humane.

At present, indeed, it is the more necessary to call the public attention to this charity; as, from want of funds, it is much circumscribed in the good which it might otherwise effect. There are only eleven Beds for Patients; in consequence of which it has repeatedly been out of the power of the Managers to receive several of those miserable women to whom they were desirous to afford relief. Some, whose cases appeared least urgent, have been refused altogether, and others have been forced to wait till there was a vacancy, to the manifest prejudice of their health, and the very great increase of the difficulty of cure. The Managers have been prevented, only by the state of the funds, from opening another Ward, by which four additional Patients might be accommodated; and they trust that the public charity will enable them immediately to afford this additional relief to the afflicted.

The Managers, impressed with the conviction that a Magdalen Asylum connected with the Institution might save many of those who are discharged, from what is almost a necessity of returning to their vicious habits, appointed a Committee to correspond on the subject with the Lord Provost and Managers of the Magdalen Asylum some years

ago instituted in this City. That Committee accordingly addressed a letter to the Lord Provost on the subject; but no step, in consequence of it, has yet been taken, or at least no such step has been reported to the Managers. It is far from the intention of the Managers to impute the least blame to any one, on account of this delay; there may be difficulties in the way incapable of being removed; but they cannot see, without bitter regret, unfortunate women, apparently deeply penitent for their past transgressions, turned out to the streets, without any means of support but a recurrence to their former vices.

It gives the Managers much pleasure to state that, during the last year, none of the Patients have died, none have escaped before being fully cured and regularly discharged, and none have been dismissed for transgressing the rules of the House.

On the eleventh day of November, 1807, there were eight Patients in the house; since that period to the eleventh of November, 1808, fifty-seven Patients have been admitted; of these (sixty-five in all) the account stands,

The Managers lay before the Meeting a list of the Donations and Annual Contributions for last year, (see App. B and C), by which it will be seen that the annual contributions alone are by no means

adequate to the support of the Establishment, even on its present contracted scale; and they trust to the charity of the public for such an increase of Annual Subscription as may remove every apprehension of this beneficent Institution being forced, at any future time, to contract the relief afforded to the destitute.

(APPENDIX A.)

State of the Funds.

Debt due at 11th Nov. 1807,	L.200	4	3

From this it appears, that the debt of the Hospital has been reduced during last year nearly L.50; and that the ordinary and extraordinary expences from the 11th Nov. 1807, to the 11th Nov. 1808, was L.312:14:9.
